FOCAL UNVEILS DIVA ALTA UTOPIA HANDCRAFTED When high-fidelity reaches new heights IN FRANCE

With the Diva Alta Utopia, Focal has created far more than a wireless, connected hi-fi speaker: it has created an absolute listening experience, one where music and cinema are expressed with rare intensity, purity and emotion. The culmination of the finest expertise from both Focal and Naim, it stands as the ultimate reference in contemporary hi-fi. Sculptural, intuitive and breathtaking, the Diva Alta Utopia transforms every space into a place of emotional resonance, and every listening session into a retreat from the everyday.

THE PINNACLE OF LISTENING EXPERIENCE

The Diva Alta Utopia is designed for those who regard sound as an art form in its own right. It delivers a spectacularly wide-ranging soundstage that is precise, natural and enveloping. Powered by seven speaker drivers, it creates a listening experience of extraordinary richness: every note unfolds with perfect clarity, every silence breathes, every instrumental detail comes alive.

With no installation constraints and no cables, it embodies a contemporary vision of high-fidelity; an all-in-one speaker that is amplified, connected and effortlessly intuitive, designed to give way to pure emotion. It reveals its full power in spaces from 50 to 120m², whether for music or film, drawing the listener as close as possible to the artist's original intention.

A WORK OF ART BORN OF FOCAL & NAIM EXCELLENCE

The Diva Alta Utopia is the most accomplished expression of the meeting of two masters: Focal, the authority in acoustics, and Naim, the benchmark in pinnacle-tier electronics. Together, the two brands bring more than a century of combined expertise, shaped by an unrelenting pursuit of innovation.

Designed and manufactured in France, it is steeped in technologies devoted entirely to sound - a new generation tweeter, unrivalled natural midrange, and enhanced bass - in a philosophy where performance, elegance and ease of use are inseparable. Every component serves a single purpose: to deliver an exceptional sonic experience that feels immediate and instinctive, yet is supremely refined in every respect.

ARTFUL DESIGN AND FINISH

With its sculptural lines, majestic yet perfectly balanced proportions and sophisticated finishes, the Diva Alta Utopia asserts a commanding, almost architectural presence. It integrates effortlessly into the most considered contemporary interiors, inevitably becoming the defining centrepiece of any room.

Its interchangeable, floating side panels, a hallmark of its singular character, allow the speaker's appearance to be transformed at will, between felt and high-gloss lacquer finishes, without altering the speaker itself. Every detail, from the premium materials to the iconic Utopia design signatures — among them the 'watch' formed by the tweeter and its anodised aluminium surround — reflects an obsessive attention to aesthetic detail. More than a speaker, the Diva Alta Utopia is a sensory signature: designed to elevate the listening experience as profoundly as it elevates the living space it inhabits.

The DIVA ALTA UTOPIA is available exclusively from the worldwide network of Focal Powered by Naim shops.

ABOUT FOCAL

A global leader in audio, Focal is a French brand renowned for its acoustic excellence, founded in 1979 in Saint-Étienne. Recognised as a Living Heritage Company and a member of the Comité Colbert, its creations are designed and manufactured in its workshops, where craftsmanship, innovation and cutting-edge technology come together. Loudspeakers and speaker drivers lie at the heart of its expertise, which also extends to headphones, in-car systems, and studio monitors for audio professionals. United with Naim – a benchmark in British electronics – Focal offers an unrivalled sound experience, embodied in the global network of Focal powered by Naim stores.
