### FOCAL & NAIM EXCELLENCE TAKEN TO NEW HEIGHTS

Diva Mezza Utopia blends the precision of traditional Hi-Fi with the elegance and convenience of an all-in-one system, embodying the essence of 'New Hi-Fi'. This collaboration between Focal and Naim Audio brings together Focal's acoustic savoir-faire, highlighted by innovative, larger bass drivers that deliver deep, articulate and impactful low frequencies—with Naim's expertly engineered built-in amplification, ensuring precise dynamics and effortless power control across spaces up to 100 m<sup>2</sup>. The result is a seamlessly integrated loudspeaker that offers an expansive soundstage, refined detail, and a truly immersive listening experience.

### LISTEN WITHOUT LIMIT

Like Diva Utopia before it, Diva Mezza Utopia continues to pave a new way to enjoy music, vinyl records, films and video games. With no cables between speakers and no need for external amplification, the sound reproduction is as flawless as the system is simple to use. Every detail is designed for a seamless experience: extensive connectivity; wide-ranging streaming options; easy control via the Focal & Naim app, remote control or voice assistants and full integration into a multiroom ecosystem for music throughout the home.

### A SONIC AND VISUAL ICON

Alongside its performance, Diva Mezza Utopia boasts a truly distinctive aesthetic. The refined frontal details, such as the dual red-and-black tweeter grille and the brushed aluminium ring that frames it, form the 'signature watch', a symbol of Utopia's excellence. The sculpted silhouette is framed by side panels crafted in elegant ivory felt, combining eco-consciousness with elegant design. Focal's pursuit of excellence is reflected in every detail and every material, delivering listening experiences where emotion is both heard and seen.
