FOCAL INSIDE

MERCEDES MERCEDES EQS

ACOUSTIC 8.0

This solution involves upgrading your vehicle's front and rear speakers through the use of separate kits, each optimized for its specific position (front and rear). The improvement of the audio system is thus more targeted, for more precise, balanced and better quality sound reproduction for each area of the passenger compartment, without complex modifications.

These Focal Inside products are designed for specific vehicles: Mercedes Classe C 4, Mercedes Glc. They are not incompatible with other vehicles from the same manufacturer or automobile group. However, Focal cannot guarantee total compatibility with these: adjustments may be necessary. It is essential to check the compatibility of our speaker kits with your vehicle's audio system before any purchase or installation. Focal cannot be held responsible in the event of incompatibility or damage resulting from incorrect installation.

Focal Inside solutions are compatible with most systems pre-equipped with original hi-fi options (Standard, Advanced, Burmester options). Our amplification solutions are not compatible with vehicles with original amplifiers with premium hi-fi options. Many location possibilities are possible, control of the basic installation is necessary.
