

FOCAL[®] INSIDE

BMW BMW 1 SERIES E87 5-DOOR

ACOUSTIC 6.0

This solution allows you to improve the front and rear speakers of your vehicle, for richer sound and better sound distribution within the cabin. Installing the new speakers does not require any significant modifications to the existing audio system, allowing for sound improvement while maintaining compatibility with your original equipment.

HPDOFRSE

IS BMW 100 V2

2-way separate kit

Legal Information: • These Focal Inside products are designed for specific vehicles: BMW 3 Series G20, BMW 4 Series F32, BMW I4. • They are not incompatible with other vehicles from the same manufacturer or automotive group. • However, Focal cannot guarantee full compatibility with these vehicles: adjustments may be necessary. • It is essential to verify the compatibility of our speaker kits with your vehicle's audio system before any purchase or installation. • Focal cannot be held responsible for any incompatibility or damage resulting from incorrect installation.

Brand Information: The BMW IS 100 v2 exploded view kit is installed at the front of the vehicle only if there are tweeter locations (pillars or doors). If your vehicle does not have an original tweeter location, we invite you to contact the BMW spare parts department to obtain specific brackets, or to install our BMW IS 100 v2 coaxial kit. When replacing the original subwoofer, depending on the car's audio system, please select the BMW ISUB with a suitable impedance (2 / 4 / 8). Below are the compatibilities to check according to your car's audio system and its impedance: • BMW Standard Audio: BMW ISUB 4 - BMW ISUB 2 • BMW Top Hifi: BMW ISUB 4 - BMW ISUB 2 • BMW Harman / Kardon: BMW ISUB 8 - BMW ISUB 2
