FOCAL INSIDE

BMW BMW I4 COUPE M G26

ACTIVE 6.2

In this solution, the replacement of the front and rear speakers, the two subwoofers combined with the addition of a dedicated amplifier, allows you to benefit from increased sound dynamics. The amplifier provides better power management and more faithful reproduction of sound details, resulting in a more nuanced experience, while maintaining excellent overall quality.

Legal Information: • These Focal Inside products have been designed for specific vehicles. • They are compatible with other vehicles from the same manufacturer or automotive group. • However, Focal cannot guarantee full compatibility with these vehicles: adjustments may be necessary. • It is essential to verify the compatibility of our speaker kits with your vehicle's audio system before any purchase or installation. • Focal cannot be held responsible for any incompatibility or damage resulting from incorrect installation.

Brand Information: The BMW IS 100 v2 exploded view kit can only be installed at the front of the vehicle if tweeter locations are available (pillars or doors). If your vehicle does not have a standard tweeter location, we recommend contacting BMW Parts for specific brackets or installing our BMW IC 100 v2 coaxial kit. Our Impulse 4.320 amplification solution can only be added to vehicles with a standard audio system, without an amplifier, or without a professional GPS (large screen). When replacing the original subwoofer, depending on the car's audio system, please select the BMW ISUB with a suitable impedance (2 / 4 / 8). Below are the compatibility options to check based on your car's audio system and its impedance: • BMW Standard Audio: ISUB BMW 4 - ISUB BMW 2 • BMW Top Hifi: ISUB BMW 4 - ISUB BMW 2 • BMW Harman/Kardon: ISUB BMW

8 - ISUB BMW 2
